Mockup Pole & Notice of Proposed Development signs

7/14/2013 Mock-up Pole went up Sunday in the afternoon

see pictures on page 2 - 4

The “Notice of Proposed Development” signs along with images were up when the mock-up was erected. They were not in a highly visible spot, the most visible sign was where cars could park in front of it. We pointed this out at the hearing on July 19th.

7/20/2013 signs taken down and not put back up until Sunday 8/4/2013

see pictures on page 5 - 7

The signs were taken down on Saturday July 20th, they were not put back up until Sunday August 4th.

8/4/2013 signs put back up with trucks parked in front of them

see pictures on page 8 – 10

8/4 – 8/16 Signs can’t be seen from either direction as you drive Big Basin Highway

see pictures on page 11 - 18

When they were put back up they both were where vehicles could park in front of them and there were vehicles parked in front of one of the signs in such a way that you have to squeeze between the one truck and the fence to even read the sign. It should also be noted that these same trucks had been parked there for over a week, meaning they were parked there when the signs were put back up and appear to be part of Chris Currier’s business. Neither sign was visible from Big Basin Highway, the images we took were of the best angles that we could find to show the notices.

8/16/2013 one signed moved, car was soon after parked in front of it

see pictures on page 19 - 21

On August 16th the one sign that was on Big Basin Highway with trucks parked in front of it was moved to a new location on the fence and soon had a car moved to be parked in front of it. That car is still parked in front of it as of Thursday August 22nd.

Notice of new hearing NEVER posted

see pictures on page 22

At the hearing on July 19th it was stated that the new hearing date would be posted at the site. As of Thursday August 22nd it has not been posted, it should also be noted that the pictures at the site are placed in such a way that they cover the hearing information.

You can hear exactly what Wanda Williams said at 1 hour and 55 minutes on the tape of July 19th hearing, below is a transcript of that clip

“So we are going to continue this matter until August 23rd and because I am announcing that now we are not going to send out additional notices to the home owners within 1000 feet. The site will be posted, we will have a posting on our website.”
